

Within the last financial year, Coedffranc Community Council has fully refurbished the Play Grounds at Jersey Marine and Llandarcy using Section 106 Agreement money. Developers working in the area have a legal obligation to pay money into a Section 106 fund, or provide their own recreational facilities within the area if the development is over a certain size. This agreement is set out as part of their Planning Conditions.

Coedffranc Community Council has also secured £12,000 funding from the contractors working for the St Modwen's Development at Swansea University. This has been used to install additional play equipment in Crymlyn Burrows Play Ground.
